ORGANIZATIONAL PROFILE

Well organized and resourceful personality. Excellent analytical skills and approach to resolving challenges and very ready to learn new things whilst producing high quality work in a fast-paced and deadline-oriented environment, a good team player and one with good communication skills.

SUMMARY

With over 3 years in the software development sector, I have honed my skills in various programming languages and have delivered high-performance financial applications. My career is marked by a track record of driving product innovations and optimizing software processes, most notably reducing database load times and integrating multi-currency exchange features that significantly expanded user engagement.
